Whether assessment is done: (Yes/No)	Yes
POs addressed:	PO8 and PO9

Mr. V. Ramakrishnan, a seasoned expert in design thinking and innovation, delivered Talk on the topic "**Design Thinking: Unleashing Creativity for Innovation.**" The session aimed to provide insights into the principles and practices of design thinking, emphasizing its application in fostering innovation.

Mr. V. Ramakrishnan has given

- Introduction to Design Thinking
- Three Laws of Design Thinking
- Empathy in Design thinking
- Case studies like NOORA Health

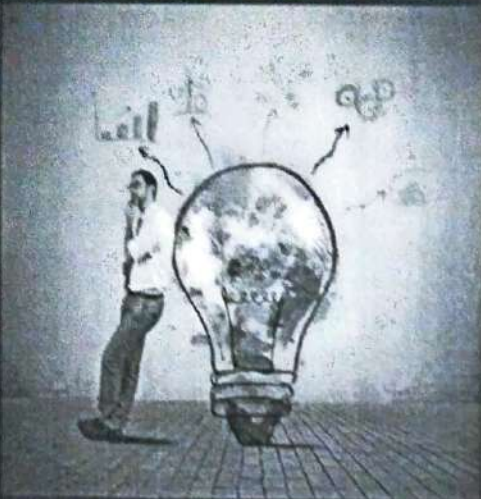

Key Takeaways:

Empathy is Crucial: Mr. Ramakrishnan emphasized the significance of empathy in design thinking. Understanding the needs, desires, and pain points of users is foundational to creating meaningful solutions.

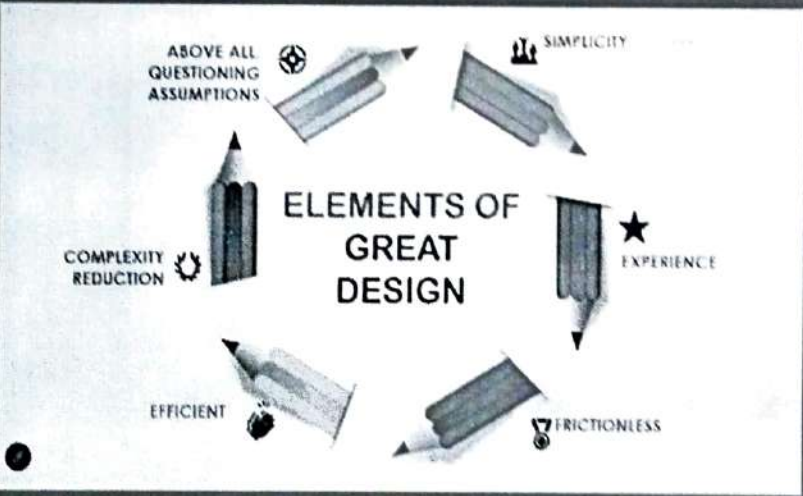

Iterative Process: Design thinking is not a linear process. It involves repeated cycles of ideation, prototyping, and testing. This iterative approach allows for continuous improvement.

Real-world Applications: The presentation of case studies and examples illustrated how design thinking has been successfully applied in various industries, ranging from technology to healthcare

Mr. V. Ramakrishnan's talk on Design Thinking provided participants with a comprehensive understanding of the methodology and its practical application. The session inspired a creative mind-set, encouraging attendees to adopt user-centred approaches in their innovation processes. The emphasis on empathy and iterative prototyping were particularly impactful. Overall, the talk on was a resounding success, leaving participants inspired and equipped with valuable tools for fostering innovation in their respective fields.

Design is a process of working to develop solutions in a conscious and innovative way in which both functional and aesthetic requirements are included based on user needs
